BLIGHT IN AFTER LIFE.

Harry Rottmerhasen, No. 500 W. had Diphtheria and Scarlet Fever several years ago, from which he never fully recovered. Catarrh was manifested by a watery discharge from the nostrils and a constantly inflamed throat. Duluess of hearing and an offensive discharge showed that the ears were affected. Soon his mother noticed peculiar nervous symptoms—twitching of the muscles, restlements and a dishaelination to play with companions, a partial loss of speech, queer ways and a stupid look from his eyes. Treatment at a celebrated hospita: only seemed to aggravate the alarming symptoms. An examination of the boy by the consulting physician at the Coppland Offices showed no incurable feature. A few months' treatment worked wonders. His health is now perfectly restored.

Doctor Jordan's Lessons in Electro. Therapeutics and his examinations by the X-Ray only between the hours of 3 and 7 P. M. daily.
